21 October 1955 (IR No. 13)

Case No. 15, "Soviet Bloc Position and Use of Perchloric Acid
and Perchlorates of Sodium, Potassium and

25X1A9a 2. When these cases were discussed at the 3 June meeting of the Working Group, a recommendation that they be cancelled could not be agreed, but information to fulfill the assignment was not immediately available. The Department of Commerce member of EDIC who was the requestor in each case, now agrees to their cancellation. Unless the Working Group Secretariat (██████████, Code 143, extension 4247) is notified by 25 July 1958, it will be assumed that Working Group members agreed to recommend cancellation of these cases.

3. Any member who cannot agree to cancellation of any one of these cases will be expected to furnish to the Working Group the information available to him which can be used to satisfy the EDIC requirement.
